T2. Please list the top three ways this institution could have improved your transition to college. (N=156)

## Answer

better social events

Nah, you guys are all good with that. The best way to make a transition is to just GO to college, the more preparation could help somewhat, but over all the best method is just to be thrown into the mix and adapt individually.

1 more help with how to handle the workload of homework 2 buses on campus to come on time 3 some teachers could be more involved in helping students out if needed

better food, transportation, more aerobic classes

I think it did a good job. Certain teachers I think should be more understanding of the transition were going through in grading our work as it does not meet certain expectations they have that we never knew.

Better advisors Better system for registering for classes there should be some type of convenience store on campus
